Computer Multimedia Headsets

Speech recognition, on-line chat, playing games – Plantronics have a range of analogue and digital headsets for any multi-media application.

See the Plantronics Computer brochure for the complete range.

Call Centre and Office Headsets

In Call Centres and busy offices around the world, Plantronics has defined the standards in sound quality, using the very latest technologies.

See the Plantronics Call Centre and Office Brochure for the complete range.

Compatibility

Our headsets are compatible with the majority of mobile phones.

And because they're so lightweight and comfortable, our headsets are great for those people who spend a lot of time on their mobile phone.

Plantronics mobile headsets – compatible with the way you live.

Direct Connection

Please note that Direct Connection means the headset can be plugged straight into specified mobile phones. Unless your mobile phone is headset ready, an adapter will be required.

The M40, M60, MX103, M220, M133 and MX150 directly connect to the most popular mobile phones and include a call answer/end button which can also be used for voice dialling if your mobile phone supports this feature.

As new mobile phones are constantly coming onto the market, please check our headset packaging to see which models they are compatible with.

Bluetooth® Compatibility

See www.plantronics.com for the latest compatibility information.

Plantronics® - an introduction

Founded in 1961 in California, Plantronics is the world's leading manufacturer of communication headsets for use with mobile phones, PCs, as well as in office and call centre environments.

Our advanced range of mobile headsets enable you to hold conversations with crystal clear sound quality while on the move; freeing your hands to perform other tasks.

Whether you are calling from a bustling city centre, a remote country spot or travelling to a meeting, your Plantronics mobile headset will deliver excellent sound quality.

And with our wireless digital Bluetooth® headsets (see opposite), you can even use your mobile phone when it's up to ten metres away from you.

With Plantronics headsets be more than mobile. Be Free.

M2500
M3000

Wireless Freedom

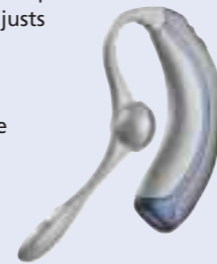

With industry-leading performance and features, Bluetooth® headsets from Plantronics deliver true wireless freedom.

The M2500 and M3000 combine comfort and style with the functionality and sound quality busy mobile users expect from Plantronics products. And as all our Bluetooth® products support the Headset and Hands-Free profiles, users are assured of a seamless compatibility with the rapidly-increasing number of Bluetooth® phones and other devices.

- Fits either ear
- Volume and mute control (M175 only)

Headset Styles

Light, ergonomic and flexible, our mobile headsets are designed to be as comfortable and easy to use as possible. As such, we offer a range of styles:

Earbud headset: This ultra light, compact ear piece is not only comfortable and discreet, it also transmits your voice clearly to the listener.

Boom headset: No matter how noisy your surroundings, you'll be able to carry on a clear conversation, thanks to the advanced noise-cancelling microphone which eliminates up to 75% of background noise. Both short boom and long boom styles are available within our extensive range.
