

DuoSet™

DuoSet™ headsets offer flexible hands-free communication. Your hands are free for multi-tasking, whether you use it in over-the-ear or over-the-head configuration. The headset is comfortable and secure, and provides excellent sound quality.

The DuoSet design allows you to choose between two different ways of wearing the headset depending on your preference. The choice of wearing styles gives flexibility without any compromise in comfort or quality.

The easy to use Quick Disconnect™ feature places the caller on hold, whilst allowing users to leave their desk without removing their headset. The noise-cancelling model is ideal for use in situations where background noise interferes with clear communications.

Backed by a two-year warranty, DuoSet delivers unsurpassed durability all day, every day.

DuoSet™

Key Features

- Convertible style headset, for use either over-the-head or over-the-ear
- Quick and easy to change from one wearing style to the other
- Conformable earloop
- Lightweight design
- Suitable for up to 4 hours intensive use, or for periods of intermittent telephone conversation
- Ideal for general, small or home office use
- Available as a noise-cancelling model, reducing up to 75% of background noise
- User replaceable spare parts
- Two year warranty

Technical Data

Weight

Over-the-head	41 grams
Over-the-ear	18 grams

Transmit Characteristics (typical)

Sensitivity @ 1kHz	-39 ± 3dBV/Pa - Voice Tube -34 ± 3dBV/Pa - Noise-Cancelling
Frequency Range	200 to 4000Hz
DC Range	1.5 to 2.2 V
Output Impedance	< 100Ω
Noise Cancellation	10dB (Noise-Cancelling models only)
Typical Test Conditions	1.8V DC, 3.3KΩ DC Resis, 3.3KΩ AC Load

Receive Characteristics

Sensitivity @ 1kHz	19.5 ± 3dBPa/V
Frequency Range	200 to 4000Hz
Acoustic Limit	24dBPa
Input Impedance	150 ± 50Ω
Typical Test Conditions	40mV Drive, 150Ω Source Impedance

Specification subject to change
