

CS60-USB

VoIP now goes wireless!

The CS60-USB headset system is an Industry first, giving hands-free wireless freedom for VoIP softphone applications. The CS60-USB even lets you take calls up to 100 metres away from your desk when a call comes into your PC.

You can fully integrate your CS60-USB with most popular VoIP softphone applications using Plantronics' PerSonoCall™ software. This simple to use software gives you full control of your calls even if you are away from your desk, keeps you updated on the status of your softphone application and even lets you customise certain functions to meet your specific needs.

The CS60-USB gives you complete wireless freedom and the very best in audio quality. Using the very latest in DECT technology, your calls are digitally encrypted ensuring, all your calls are private and secure.

With a choice of 3 headset wearing options and a talk time of up to 9 hours, you can enjoy wireless freedom throughout your whole business day. The battery is designed to recharge quickly ensuring you are always available.

Sound Innovation™ for missions to the moon. And for everyday life on this planet, too.

In 1969, a Plantronics headset carried the historic first words from the moon: "That's one small step for man..." From the man on the moon to the man on the street, Plantronics is an innovation leader dedicated to creating communication solutions for people who understand and appreciate the real freedom of space. From outer space to inner space, find your space.
