

UI720 Hang up before you go

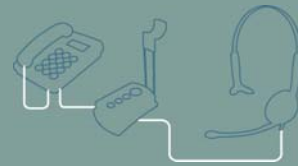

- ▶ The most basic universal interface model which includes the convenient headset stand
- ▶ Incoming volume control allows adjusting the signal during the call for personal comfort

The passive box UI 720 makes life that much easier by letting you switch back and forth between handset and headset.

- ▶ Features a termination switch which allows for the use of a code 01 cable
- ▶ Compatible with almost every digital and analogue telephone for easy planning
- ▶ The microphone mute allows the wearer to privately converse with others close by
- ▶ Line powered, therefore no battery or AC transformer required
- ▶ Features a particularly modern design and ergonomic and discreet cable connection
- ▶ Compatible with all Sennheiser Communications telecom headsets
